

## **Announcement of the Annual General Meeting of the “European Thermoelectric Society” ETS in 2019**

The annual general meeting of the *European Thermoelectric Society* (ETS) will take place at the 17th European Conference on Thermoelectrics ECT2019, to be held in Limassol / Cyprus, September 23-25, 2019.

The European Thermoelectric Society (ETS) is a non-profit scientific association, founded in 1995 as a regional organization of the International Thermoelectric Society (ITS). The ETS aims to represent the interests of everyone involved in thermoelectricity. It offers a platform to the thermoelectric community to improve exchange of information and pool resources. On the other hand, it acts as a single point of contact for economy, politics, and the interested public. It is committed to watch trends, give directions for future activities, develop visions, and render guidance to those interested in the field. An important function is to raise awareness of thermoelectricity and its applications in Europe.

The topics of the annual meeting of the European Thermoelectric Society in 2019 will be

1. Opening
2. ETS Board Elections
3. New ETS Bylaws
4. ETS Affairs and announcements
5. Applications
6. Miscellaneous

Applications should be send to [jan.koenig@ipm.fraunhofer.de](mailto:jan.koenig@ipm.fraunhofer.de) until September 16, 2019.

On behalf of the executive ETS board

Jan König (Secretary)
